Breathing is the only prerequisite that is relevant to communication. Breathing equals life, and life equals communication. It is that simple.

Believe in my abilities
Respond to my intent
Expand my range of communication partners
All of my words, all of the time
Take my device everywhere
Honor communication as a Human Right
Ensure I am included in the conversation
(Nothing about me without me)

"Believing in your abilities . . . expand your range of communication partners . . . using AAC is a Human Right . . . ensure you're included in the conversation . . ."
