

ACES 2018

Augmentative Communication Empowerment Supports

ACES participants:

- Attend a 10-day “learning experience” on Temple University’s main campus.
- Receive months of preparation and planning supports from ACES staff prior to on-campus program.
- Learn to improve communication, computer access/use, and empowerment skills for daily living.
- Focus on skills needed to transition from high school to adult life.
- Create a plan for employment, post-secondary education, and/or community living.

July 30 - Aug. 10, 2018

Temple University Main Campus

ACES is a program for young adults who use communication technology (speech generating devices) to develop/refine their skills for effective communication at home, school, work and in the community.
